August 10, 2020

## Honorable Mayor and Members of the Board of Aldermen:

The Finance Department is pleased to present the Comprehensive Annual Financial Report (CAFR) of the City of Harrisonville, Missouri (the City), for the fiscal year ended December 31, 2019. This report is required under RSMo. 105.145 and is submitted for your information and review.

The responsibility for accuracy, completeness, and fairness of the data presented, including all disclosures, rests with the City. Management believes the report as presented is accurate in all material respects and is presented in a manner designed to fairly set forth the financial position and results of annual operations of the City, both on a government-wide and a fund basis.

The City's Finance Department prepares the year-end trial balances and supporting schedules and assists in the preparation of the financial statements, which undergo an annual audit by an independent certified public accountant. The City's financial statements have been audited by the accounting firm of Cochran Head Vick & Co. P.C., and that audit resulted in an unmodified opinion that the City's financial statements for the fiscal year ended December 31, 2019, are fairly presented, in all material respects, in conformity with accounting principles generally accepted in the United States of America. That opinion, and the procedures and testing that led to it, is found in the "Independent Auditors' Report" at the beginning of the Financial Section of the CAFR.

Following the independent auditors' report and opinion is management's discussion and analysis (MD&A) of the financial statements. This analysis, along with the basic financial statements and notes, provides an overview of the City's financial position and operating results. The supplemental and statistical sections help provide a broader understanding of the City and, along with the introductory section, provide context to the report.

## Profile of the City of Harrisonville

The town of Harrisonville was established in 1837 and was named in honor of Albert G. Harrison, one of the first two U.S. Congressional representatives elected from the state of Missouri. Harrisonville became incorporated in 1851. S.G. "Squire" Allen was appointed the first mayor of the town in 1857, and Col. H. W. Younger, father of the infamous Cole Younger, was elected mayor in 1859. There is a rich local history of the Civil War era in Harrisonville, and in the decades following the war, the town grew in importance as the county seat of Cass County and as a transportation hub for the region.

Today, Harrisonville is home to approximately 10,000 residents, with manufacturing and distribution facilities representing several major national firms. It still serves as a transportation center, with Interstate 49 and several state highways providing access to the Kansas City metropolitan area as well as the recreation areas of south-central Missouri.

The City of Harrisonville, Missouri, is a fourth-class city organized under Missouri statutes and is governed by a Mayor and eight-member Board of Aldermen, two from each of the four wards. The Mayor and Board appoint a City Administrator to serve as the chief administrative officer of the City, and to oversee the operations of all City departments. The City provides a full complement of general governmental services including police and fire protection, emergency medical services, parks and recreation, public works services, an airport, and general administrative services. The City also provides electrical distribution, water, and sanitary sewer services, all of which are accounted for in the financial statements as business-type activities.

## Factors affecting financial conditions

Local economy - Overall retail sales have recovered to the levels enjoyed prior to the recession, and we see some local businesses investing in renewal. While housing remains tied to the stable population, economic development continues to focus on the creation and expansion of employment opportunities. Outside investors have continued to show interest in Harrisonville's location and workforce when considering potential business sites. Harrisonville's place as a regional trade center for basic goods and services has helped shelter the community from more severe economic downturns.

Long-term financial planning - The City prepares a ten-year Capital Improvement Plan (CIP) for constructing, maintaining, and replacing the City's physical infrastructure. These projects are reviewed annually and updated as conditions, prices, resources, and priorities change. These projections are included as a part of the five-year financial projection of each of the City's operating funds during the Board of Aldermen's annual budget process. By Board policy, the City maintains a reserve in each of the operating funds for budgetary and planning purposes.

Cash management and risk management - The primary concern of the City's cash management policy is the safety of principal. The City follows a conservative investment policy which is closely monitored by staff and reviewed annually. Investment yield remains low compared to historical averages, but the security of the investment principal is the City's overarching priority. Cash balances of the various funds are consolidated for maximum earnings flexibility. Following the close of the fiscal year, the City renewed all major insurance policies after a review and update of exposures and pricing. With both cost and risk on the increase, insurance coverage is an area which receives significant attention.

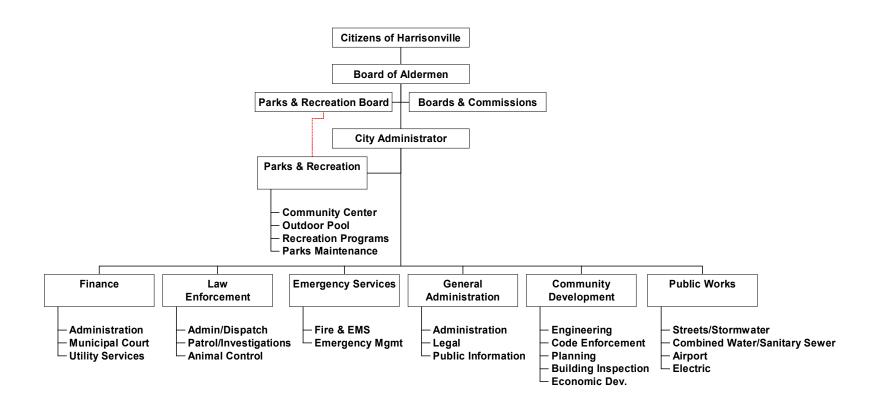

The preparation of this report would not have been possible without the year-round dedication and hard work of the staff of the Finance Department, with special thanks to the city's finance consultant, Ben Hart. The City's independent audit firm of Cochran Head Vick & Co. P.C. was instrumental in the preparation of this report and highly professional in their dealings with our staff. I would also like to thank Mayor Bowman, the Board of Aldermen, and City Administrator Brad Ratliff for their continued interest in and support of the maintenance of the financial health of our City.

Respectfully submitted,

Kim Hubbard

Kim Hubbard Assistant Finance Director

#### INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and Board of Aldermen City of Harrisonville, Missouri

Other Offices in Missouri and Kansas

We have audited the accompanying financial statements of the governmental activities, the business-type activities, discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Harrisonville, Missouri (the City) as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

## Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

## Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to the financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, discretely presented component unit, each major fund, and the aggregate remaining fund information of the City as of December 31, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

## Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of changes in net pension liability (asset) and related ratios, schedule of employer contributions, and schedule of changes in net OPEB liability and related ratios as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, combining and individual non-major fund financial statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual non-major fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual non-major fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

## Other Reporting Required by Government Auditing Standards

Cochran Head Vick + Co., P.C.

In accordance with *Government Auditing Standards*, we have also issued our report dated August 10, 2020, on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Kansas City, Missouri August 10, 2020

Our discussion and analysis of the City of Harrisonville's (the City) financial performance provides an overview of the City's financial activities for the fiscal year ended December 31, 2019. We encourage readers to consider the information presented here in conjunction with the accompanying transmittal letter, the basic financial statements, and the accompanying notes to those financial statements.

## **Financial Highlights**

- The assets and deferred outflows of the City exceeded its liabilities and deferred inflows (Net position) at the close of the December 31, 2019 fiscal year by \$22,238,104 for the City's governmental activities and \$42,377,918 for the City's business-type activities.
- As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$5,845,870 a decrease of \$331,231 in comparison with the prior year. Approximately 72 percent of the fund balance, \$4,152,309 is unassigned and available for spending at the government's discretion.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$4,339,212 or approximately 44 percent of the total General Fund expenditures for 2019.

### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of three components: government-wide financial statements, fund financial statements, and notes to the basic financial statements. This report also contains required and other supplementary information in addition to the basic financial statements.

## Reporting the City as a Whole

Our analysis of the City as a whole begins on page 5. One of the most important questions asked about the City's finances is, "Is the City as a whole better off or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities reports information about the City as a whole and its activities in a way that helps answer this question. These statements include all assets, deferred outflows, liabilities, and deferred inflows using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

The Statement of Net Position and the Statement of Activities report the City's net position and changes in it. You can think of the City's net position—the difference between assets and deferred outflows less liabilities and deferred inflows—as one way to measure the City's financial health, or financial position. Over time, increases or decreases in the City's net position are one indicator of whether its financial health is improving or deteriorating. You will need to consider other non-financial factors, however, such as changes in the City's property tax base and the condition of the City's roads, to assess the overall health of the City.

To aid in the understanding of the Statement of Activities, some additional explanation is given. Of particular interest is that the format is significantly different than a typical Statement of Revenues, Expenses, and Changes in Fund Balance. You will notice that expenses are listed in the first column with revenues from that particular program reported to the right. The result is a Net (Expense)/Revenue. The reason for this kind of format is to highlight the relative net financial costs of each of the functions on the City's taxpayers. It also identifies how much each function draws from the general revenues or if it is self-financing through fees and grants.

In the Statement of Net Position and the Statement of Activities, we divide the City into two kinds of activities:

Governmental activities—Most of the City's basic services are reported here, including general government, public safety, streets, community development, airport, emergency services, parks and recreation, and community center. Taxes, (sales, property, and franchise) charges for services, fines, and state and federal grants finance most of these activities.

Business-type activities—The City charges a fee to customers to help it cover all or most of the cost of certain services it provides. These services include electric, water and sewer, refuse, and aquatic center.

## Reporting the City's Most Significant Funds - Fund Financial Statements

The fund financial statements begin on page 12 and provide detailed information about the most significant funds—not the City as a whole. Some funds are required to be established by State law and by bond covenants. The City establishes other funds to help it control and manage money for particular purposes. The City uses three types of funds to manage its resources: governmental, proprietary, and agency funds. A fund is a fiscal entity with a set of self-balancing accounts recording financial resources, together with all related liabilities and residual equities and balances, and the changes therein. These accounting entities are separated for the purpose of carrying on specific activities or attaining certain objectives in accordance with regulations, restrictions, or limitations.

Governmental funds—Most of the City's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in the reconciliation following the fund financial statements.

**Proprietary funds**—When the City charges customers for the services it provides, these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Activities. In fact, the City's enterprise funds, are the same as the business-type activities we report in the government-wide statements but provides more detail and additional information, such as cash flows.

**Fiduciary Funds**—Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements since the resources of those funds are not available to support the City's operations. The accounting used for fiduciary funds is much like that used for proprietary funds.

### **Notes to the Basic Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

## Other Information

In addition to the basic financial statements and accompanying notes, this report also contains certain *required supplemental information* that further explains and supports the information in the financial statements. This report also contains *other supplementary information* that provides certain combining and individual fund statements and schedules.

## **Government-Wide Financial Analysis**

Our analysis below focuses on net position (Figure 1) and changes in net position (Figure 2) of the governmental and business-type activities.

Net position may serve over time as a useful indicator of a government's financial position. The City's assets and deferred outflows exceeded liabilities and deferred inflows by \$64,616,022 at the close of fiscal year ended December 31, 2019. Of this total, \$5,990,963 is restricted; \$2,666,461 for pension benefits, \$34,217 for other programs, \$3,114,799 for debt service, and \$175,486 for parks and recreation.

Total revenues decreased \$434,552 over 2019. In 2019, approximately 73.1% of total revenues are charges for services. The majority of the City's total revenue comes from the business-type activities of the Electric and Combined Water and Sewer utility funds. In the governmental activities area, taxes were the largest single source of income, led by the sales tax revenues which account for 37.1% of governmental revenues.

Total program expenses for 2019 are \$28,345,998 with the majority, \$15,637,494, stemming from business-type activities. Governmental activities expenses increased \$806,521 while the business-type activities expenses increased \$802,710.

Public safety expenses, at \$3,080,641, totaled approximately 24.2% of the governmental activities, while the electric utility expenses compose 67.1% of the business-type activities expenses.

#### Governmental Funds

The focus of the City's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balances may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As mentioned earlier in this analysis, at the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$5,845,870. Of this amount \$1,693,361 is *non-spendable*, restricted, or committed for various purposes and \$4,152,509 is unassigned.

The City's fund balance of the General Fund decreased \$328,918 during the current fiscal year. For external financial reporting, the City's Emergency Fund activities are combined with the General Fund's activities. The General Funds activities decreased fund balance by \$107,487 while the Emergency Fund's activities decreased fund balance by \$221,431. General Fund combining financial statements are presented on pages 58 and 59 of this report.

The Community Center Fund has an ending fund balance of \$57,530. Fund balance increased by \$6,870 because expenditures were kept at a minimum in an effort to offset the revenue not meeting projections.

The Town Center TIF Fund has an ending fund balance of \$36,940 of which \$36,623 is restricted. The Towne Center TIF Fund continues to impact the net position of the City. The anchor tenant opened in spring 2007. One additional pad site has been occupied, and a hotel has been opened on the south end. The two remaining pad sites are still open for development. The City budgeted and contributed City funds to help meet the debt service schedule in 2019 but will need additional development to continue to service the debt without impacting other City funds.

## **Proprietary Fund**

The City's proprietary fund provides the same type of information found in the government-wide financial statements, but in more detail. The net position of the electric fund at the end of the year totaled \$12,036,204, an increase of \$84,291 from 2018. The net position of the water/sewer fund amounted to \$29,876,054 at the end of 2019, an increase of \$735,380 from 2018.

## General Fund Budgetary Highlights

On a budgetary basis, the General Fund is the main operating fund of the City. The budgetary basis fund balance decreased \$202,945 from the prior year. The General Fund's expenditures were less than budgeted amounts by \$1,117,101. The primary reason for General Fund not meeting budgeted expenditures was due to reorganization of staff and vacant positions. The Community Development Director position was not filled due to reorganization of that division. Also, there were several police positions vacant during 2019.

## **Capital Asset and Debt Administration**

At the end of December 31, 2019, the City had \$63,019,826 invested in capital assets including land, buildings and improvements, equipment, vehicles, infrastructure, and water and sewer lines net of accumulated depreciation. (See table below) This represents a net decrease of \$2,183,467 from last year. See Note 6 to basic financial statements for more information and detail on the City's capital assets

Capital assets, net of accumulated depreciation

Significant governmental activities additions include purchase of a new ambulance and other vehicles of approximately \$298,000.

Significant business-type activities include completion of the improvements to the water treatment plant. These improvements were funded by the voter approved bonds utilizing the State Revolving Fund financing program through the Missouri Department of Natural Resources.

As of December 31, 2019, the City had total long-term debt outstanding of \$22,497,892. Details of the existing debt obligations of the City are discussed in Note 7 to the financial statements. The City continues to have no general obligation debt.

#### **Economic Outlook**

The City of Harrisonville, Missouri, benefitted from a relatively stable economic situation in 2019, with overall employment remaining steady and a slight increase in sales tax collections.

Since the onset of the Coronavirus Pandemic the City of Harrisonville has been following State requirements and urging its citizens to use precautionary measures such as limiting gatherings to groups of 10 people and wearing face masks when unable to socially distance. Such State and local measures may have an adverse effect on sales taxes generated in the City and on the timing of receipt of sales taxes by the City. While the City is not able to predict and makes no representations as to the economic impact of the unprecedented Coronavirus pandemic on the City or its financial position, management has been taking steps to estimate revenue impacts and identify potential offsetting expenditure reductions.

The City entered into a contract with Burns and McDonnell to conduct a water/sewer rate study and staff anticipates the study to be completed in 2020. Approximately \$850,000 of infrastructure improvements were planned and completed in 2019 including sidewalks, storm water, and street overlay projects. Fiscal Year 2020 plans are to complete approximately \$500,000 of infrastructure improvements similar to 2019. A new ambulance was purchased, and a new fire truck ordered in 2019. The estimated delivery time for the fire truck is anticipated the end of September 2020. The financial software system update implementation is scheduled to begin in October 2020. Election of half of the Board of Aldermen took place June 2 ,2020, the next board election is scheduled for April 2022. These elected officials serve four-year terms. The Board of Aldermen and City staff take a vigilant approach to monitoring the City's financial health, identifying, and acting on trends in order to forestall any major problems.

## **Financial Contact**

These financial statements are designed to provide a general overview of the City's finances and to demonstrate the City's accountability. Any questions or request for additional information should be directed to the Assistant Finance Director, 300 E. Pearl Street, Harrisonville, Missouri 64701.

## City of Harrisonville, Missouri Reconciliation of the Balance Sheet - Governmental Funds to the Statement of Net Position December 31, 2019

| Fund balances of governmental funds   | \$<br>5,845,870  |
|---|------------------|
| Amounts reported for governmental activities in the statement of net position are different because:  |                  |
| Net pension asset is not available to pay for current period expenditures and are therefore deferred in the governmental fund statements  | 2,191,493        |
| Capital assets used in governmental activities are not financial resources and therefore are not reported in the governmental fund statements.  | 21,875,193       |
| Deferred charges on refunding are not due and payable in the current period and therefore not reported in the governmental fund statements  | 223,472          |
| Deferred outflows and inflows related to pension activity are not required to be reported in<br>the governmental funds but are required to be reported in the Statement of Net Position       | (197,253)        |
| Liabilities for interest on long-term debt are recognized only when due in the governmental fund statements but are accrued in the government-wide statements.                                | (30,868)         |
| Deferred outflows and inflows related to OPEB activity are not required to be reported in the governmental funds but are required to be reported in the Statement of Net Position             | 6,250            |
| Long-term liabilities for items such as bonds, certificates of participation and capital leases are not current obligations and, therefore, not recorded in the governmental fund statements. |                  |
| Long-term liabilities   | (7,664,445)      |
| Net OPEB liabilities are not due and payable in the current period and therefore are not reported in the governmental fund statements.  | (11,608)         |
| Net position of governmental activities   | \$<br>22,238,104 |

# City of Harrisonville, Missouri Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances Governmental Funds to the Statement of Activities For the Year Ended December 31, 2019

Amounts reported for governmental activities in the statement of activities are different because:

| Net change in fund balances - total governmental funds  | \$<br>(331,231) |
|---|-----------------|
| Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.  |                 |
| Capital outlay costs in excess of capitalization threshold  | 559,987         |
| Depreciation  | (1,392,172)     |
| The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction has any effect on net position. |                 |
| Principal payments on long-term debt  | 1,237,399       |
| Changes in unamortized bond issuance discount and premium   | 10,910          |
| Changes in accrued interest expense   | 4,442           |
| Changes in deferred amount on refunding   | (57,247)        |
| Some expenses reported in the statement of activities do not require<br>the use of current financial resources and, therefore, are not reported<br>as expenditures in governmental funds.   |                 |
| Change in compensated absences  | 17,085          |
| Change in net pension liability/asset   | 206,686         |
| Change in pension related deferred outflows   | 67,862          |
| Change in pension related deferred inflows  | (225,694)       |
| Change in OPEB liability and related deferred inflows   | 37,741          |
| Change in net position of governmental activities   | \$<br>135,768   |

## (1) Summary of Significant Accounting Policies

The City of Harrisonville, Missouri (the City) was founded in 1837. The City is a fourth-class city in which citizens elect the Mayor at large and eight board of aldermen members by wards. The City provides a variety of general governmental services to residents including general administrative services, public safety, public works, parks and recreation, airport, and cemetery operations. Other services include electric, water, sewer, and sanitation operations.

The accounting and reporting policies of the City conform to generally accepted accounting principles (GAAP) in the United States of America applicable to local governments. The following represent the more significant accounting and reporting policies and practices of the City.

## A. Financial Reporting Entity

In evaluating how to define the government for financial reporting purposes, management has considered all potential component units. The accompanying financial statements present the City (the primary government) and any component units over which the City exercises significant influence. Significant influence or accountability is based primarily on operational or financial relationships with the City (as distinct from legal relationships). In determining the financial reporting entity, the City complies with GAAP, and includes all component units of which the City appointed a voting majority of the units' board and the City is either able to impose its will on the unit or a financial benefit or burden exists.

The City has developed criteria to determine whether outside agencies with activities which benefit the citizens of the City, including joint agreements, should be included within its financial reporting entity. The criteria include, but are not limited to, whether the City exercises oversight responsibility, which includes financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations, and accountability for fiscal matters, scope of public service, and special financing relationships. Component units are reported in the City's financial statements as follows:

### Discretely Presented Component Unit

A discretely presented component unit is a separate legal entity that meets the component unit criteria. These criteria include the ability to impose its will on or significantly influence the organization or if a financial benefit or burden relationship exists.

The Market Place TIF District Fund (the District) accounts for the revenues and expenditures associated with the Market Place Redevelopment Project.

#### **Blended Component Unit**

In addition to the criteria noted above, a blended component unit's governing body is the same or substantially the same as the City's Board of Aldermen, or the component unit provides services entirely to the City. The component unit's funds are blended into those of the City by appropriate fund type to constitute the primary government presentation.

The Towne Center TIF Fund accounts for proceeds of the TIF notes issued to pay for the Towne Center Redevelopment Project along with the tax proceeds and uses generated by the District. The City has not adopted an annual budget for this fund.

#### B. Basis of Presentation

The City's basic financial statements include both government-wide (reporting the City as a whole) and fund financial statements (reporting the City's major funds).

#### Government-wide financial statements

The statement of net position and the statement of activities display information about the City, the primary government, as a whole. These statements distinguish between the *governmental* and *business-type activities* of the City. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties. Expenses are specifically associated with a service, program, or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program is self-financing or draws from the general revenues of the City.

#### Fund financial statements

Fund financial statements report detailed information about the City. The focus of governmental and proprietary fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column.

## **GOVERNMENTAL FUNDS**

Governmental Funds are those through which most governmental functions of the City are financed. The acquisition, use, and balances of the City's expendable financial resources and the related liabilities (other than those in Proprietary Funds) are accounted for through Governmental Funds. The measurement focus is upon determination of financial position and changes in financial position, rather than upon net income determination.

The following are the City's major governmental funds:

General Fund – this fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund. For financial reporting purposes, the City's Emergency Services Fund's activities are included in the General Fund.

Community Center Fund - this fund is responsible for the operations of the City's Community Center. The fund is financed by the park sales tax and charges for services.

Towne Center TIF Fund - this fund accounts for the proceeds of the TIF notes issued to pay for the Towne Center Redevelopment Project along with the tax increment financing revenues generated by the TIF District. The City has not adopted an annual budget for this fund.

## PROPRIETARY FUNDS

Proprietary Funds are used to account for the City's ongoing activities which are similar to those found in the private sector. The measurement focus is upon determination of net income, financial position, and changes in financial position.

The following are the City's major proprietary funds:

Electric Fund – this fund accounts for the billing and collection of charges for electric service for most City residents. Revenues are used to pay for both operations and capital outlay to maintain this service.

Water and Sewer Fund – this fund accounts for the billing and collection of charges for water and sanitary sewer services to the residents of the City and a limited number of customers outside of City limits. All activities necessary to provide such services are accounted for in this fund.

Additionally, the City reports the following nonmajor funds:

#### Governmental Funds

Park Fund – this fund is primarily used for the maintenance of the City's parks. The fund is financed by property taxes, intergovernmental revenues, and charges for services.

Debt Service Fund – this fund is used to account for the accumulation of financial resources for, and the payment of, the principal and interest for the 2012 Certificates of Participation.

## **Proprietary Funds**

Aquatic Center Fund – This fund accounts for the operations and maintenance of the Aquatic Center.

Refuse Fund – this fund accounts for the provision of refuse collection to the residents of the City. All activities necessary to provide such services are accounted for in this fund.

## **Fiduciary Funds**

This fund accounts for the City's fiduciary responsibility to account for the receipts and disbursements associated with the Highway 71/291 Partners in Progress TDD and the Hospital Interchange TDD.

### C. Basis of Accounting

Government-wide Financial Statements

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned or when all eligibility requirements have been satisfied and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the City gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, sales tax, and donations. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. This is a similar approach to that used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Therefore, the governmental fund financial statements include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

## Governmental Fund Financial Statements

All governmental funds are accounted for using the modified accrual basis of accounting and the current financial resources measurement focus. Under this basis, revenues are recognized in the accounting period in which they become measurable and available. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable.

## Revenue Recognition

In applying the susceptible to accrual concept under the modified accrual basis, certain revenue sources are deemed both measurable and available. The City considers all revenues for investment earnings, special assessments, state levied locally shared taxes (including motor vehicle fees) and other intergovernmental revenues to be available if the revenues are collected within sixty days after year-end. Proceeds and payments of long-term debt are reported as other financing sources and uses.

#### Expenditure Recognition

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Most expenditures are measurable and are recorded when the related fund liability is incurred. However, principal and interest on general long-term debt, which have not matured are recognized when due. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

#### Proprietary Fund Financial Statements

The economic resources measurement focus and the accrual basis of accounting are utilized by the proprietary funds. Under this basis of accounting, revenues are recognized when earned and expenses are recorded when liabilities are incurred. All assets and liabilities (whether current or noncurrent) associated with a proprietary fund's activities are included on its statement of net position and statement of activities. Operating revenues and expenses for proprietary funds are those that result from providing services and producing and delivering goods and/or services. All other revenues and expenses are considered nonoperating.

#### D. Cash and Investments

The City maintains a cash and investment pool in which a majority of the City's funds share. Each fund type's portion of this pool is displayed in the financial statements as cash and investments, and investments made in accordance with bond ordinances are reflected as restricted cash and investments. Permissible investments include obligations of the U.S. Government, State of Missouri, bonds, bills, or notes guaranteed by the U.S., state or city governments, certificates of deposit, repurchase agreements, banker's acceptances, and commercial paper. Investments are reported at fair value based on quoted market prices. Interest earned from the pool is allocated to the funds on the basis of average monthly cash and investment balances.

### E. Accounts Receivable

Governmental activities accounts receivable consists of miscellaneous services provided to citizens. Business-type activities represent billed and unbilled charges for water, electric, sewer, and sanitation services. Accounts receivable are shown net of an allowance for uncollectible accounts.

## F. Prepaid Items

Prepaid items reflect the payment of insurance premiums for coverage that benefits more than one fiscal period. The premium amounts are amortized using the consumption method over the policy periods in both the government-wide and fund financial statements.

### G. Inventory

Inventory is stated at the lower of costs or market using the first-in, first-out (FIFO) method. Inventories primarily consist of materials and supplies. The costs of these inventories are recorded as an expense when consumed or sold.

## H. Capital Assets

Capital assets include land, buildings, improvements, equipment, and infrastructure assets (e.g., roads, bridges, storm sewers, and similar items) and are included in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are charged to expenditures when purchased in the governmental fund statements and capitalized in the proprietary fund statements. Capital assets are recorded at historical cost or estimated historical cost if actual historical cost is not available. Donated assets are recorded at estimated fair value as of the date of the donation.

Capital assets are defined by the City as assets with an initial, individual cost of \$5,000 or more and an estimated useful life of greater than one year. Additions or improvements and other capital outlays that significantly extend the useful life of an asset, or that significantly increase the capacity of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Fully depreciated capital assets are included in their respective accounts until their disposal.

Depreciable assets (which do not include land or construction-in-progress assets) are depreciated using the straight-line method over the following estimated useful lives:

 $\begin{array}{lll} \text{Buildings and improvements} & 15-50 \text{ years} \\ \text{Machinery and equipment} & 5-40 \text{ years} \\ \text{Vehicles} & 5-20 \text{ years} \\ \text{Infrastructure} - \text{Streets} & 7-50 \text{ years} \\ \text{Transmission lines and mains} & 30-50 \text{ years} \\ \end{array}$ 

## I. Compensated Absences

Employees earn vacation time based on the number of years' service to the City. Outstanding vacation leave is payable upon termination of employment. Compensated absences are accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignation and retirement.

#### J. Deferred Outflows/inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City has three items that qualify for reporting in this category. The first item results from actuarial assumption changes, the change in actual and projected experience in calculating the pension asset, and pension contributions made by the City subsequent to the pension valuation date. The contribution amount will be applied during the next fiscal year while the changes in actual versus projected amounts will be amortized over five to seven years. The second item results from assumption changes, and the difference in experience in calculating the OPEB obligation. The third item is the deferred charges on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. The amount is deferred and amortized over the shorter of the life of the refunding or refunded debt.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has three items that qualify for reporting in this category. The first item relates to the change in actual and projected experience in calculating the pension liability and the difference between actual and projected earnings in calculating the net pension asset. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available over five to seven years. The second item relates to the change in assumptions related to calculating the OPEB liability. These amounts are deferred and recognized as an inflow of resources in future periods. The third item is the unavailable revenue reported for property taxes that were levied for use in the year subsequent to when it was collected. These amounts are deferred and will be recognized as an inflow of resources during the subsequent year.

For purposes of measuring the net pension asset or liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Missouri Local Government Employees Retirement System (LAGERS) and additions to/deductions from LAGERS fiduciary net position have been determined on the same basis as they are reported by LAGERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

## K. Interfund Activity

**Loans** – amounts provided with a requirement for repayment. Interfund loans are reported as interfund receivables (i.e., due from other funds) in lender funds and interfund payables (i.e. due to other funds) in borrower funds.

**Services provided and used** – sales and purchases of goods and services between funds for a price approximating their fair value. Interfund services provided and used are reported as revenues in funds providing the good or service and expenditures or expenses in the fund purchasing the good or service. Unpaid amounts are reported as interfund receivables and payables in the fund balance sheets or statement of net position.

**Payment in Lieu of Taxes (PILOTS)** – paid from the City's electric fund to the general fund were \$905,144 for the year ended December 31, 2019.

**Transfers** – flows of assets (such as cash or goods) without equivalent flows of assets in return and without a requirement for repayment. In governmental funds, transfers are reported as other financing uses in the funds making transfers and as other financing sources in the funds receiving transfers.

#### L. Fund Balances

In the fund financial statements, governmental funds report the following fund balance classifications:

Non-Spendable – This consists of amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact.

Restricted – This consists of amounts where constraints are placed on the use of those resources which are either externally imposed by creditors, grantors, contributors, laws, or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

Committed – This consists of amounts which can only be used for specific purposes determined by a formal action of passing an ordinance or resolution by the Board of Alderman, the City's highest level of decision-making authority. Any changes or removal of specific purpose requires the same action by the Board of Alderman.

Assigned – This consists of amounts which are constrained by City management's intent to be used for a specific purpose but do not meet the criteria to be classified as committed. In accordance with the approved City policy only the Board of Aldermen has the authority to assign amounts for a specific purpose in this category.

Unassigned – This consists of the residual fund balance that does not meet the requirements for the non-spendable, restricted, committed, or assigned classifications. A positive unassigned fund balance is only possible in the general fund.

The City has a fund balance policy that provides guidance for programs with multiple revenue sources. The policy is to use restricted resources first when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. For purposes of fund balance classification expenditures are to be spent from restricted fund balance first, followed in order by committed fund balance, assigned fund balance and lastly unassigned fund balance.

Deficit fund equity

At December 31, 2019, the Parks Fund and the Emergency Service Fund (which is reported with the City's General Fund) have deficit fund balances of \$26,818 and \$693,957, respectively. These deficits will be eliminated as resources are obtained from revenues and transfers in.

#### M. Net Position Classifications

In the government-wide statements, equity is shown as net position and classified into three components:

Net investment in capital assets – consisting of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgage notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted net position – consisting of net position with constraints placed on their use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation. The City first utilizes restricted resources to finance qualifying activities.

Unrestricted net position – All other net position that do not meet the definition of "restricted" or "net investment in capital assets."

Sometimes the City will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

#### N. Statement of Cash Flows

Proprietary Fund investments maintained in the City's pooled investments are readily convertible to known amounts of cash, and so near to their maturity that they present insignificant risk of changes in value because of changes in interest rates, and generally have a maturity of less than three months when purchased. Accordingly, for purposes of the statement of cash flows, these investments are considered cash equivalents.

## O. Stewardship, Compliance and Accountability

The Missouri Revised Statutes (RSMo) require all political subdivisions of the State prepare an annual budget. Governmental funds required to have legally adopted budgets include the general fund. Annual budgets for all governmental funds are adopted using the modified accrual basis of accounting. Budgeted expenditures cannot exceed budgeted revenues and unencumbered positive fund balances as required by Section 67.010 RSMo.

RSMo section 302.341 requires the City to annually calculate the percentage of its general revenue that comes from traffic violations. Any such revenues that exceed 20% of total general revenues are required to be transferred to the Director of the Missouri Department of Revenue. In the current year, the City has reported fines and forfeitures, which includes traffic violations and other additional items, in the amount of \$186,562. This amount is approximately 2.04% of total general revenues of \$9,142,040 and, accordingly, the management of the City believes that they are in compliance with the requirements of the Statute.

### P. Use of Estimates

The preparation of the basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the basic financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

## (2) Cash and Investments

A summary of the carrying values of deposits, investments and petty cash at December 31, 2019 is as follows:

| Deposits                   | \$<br>1,908,683  |
|----------------------------|------------------|
| Certificates of deposit    | 12,654,001       |
| Investments                | 4,021,255        |
| Investments held in trust  | 818,533          |
| Petty cash                 | <br>3,300        |
| Total cash and investments | \$<br>19,405,772 |

These carrying values are reflected in the financial statements as follows:

| Cash and investments            | \$ | 15.809.445 |
|---------------------------------|----|------------|
| Restricted cash and investments | ,  | 3,142,617  |
|                                 |    | 18,952,062 |
| Component unit:                 |    |            |
| Cash and investments            |    | 92,251     |
|                                 |    |            |
| Agency funds:                   |    |            |
| Cash and investments            |    | 361,459    |
|                                 |    |            |
| Total cash and investments      | \$ | 19,405,772 |

## Investment Policy

The City deposits and invests all monies as allowed by state statute and in accordance with its investment policy. State statutes allow the City to deposit in open accounts and certificates of deposit, and to invest in direct obligations of the U.S. Government, U.S. Government agency obligations and repurchase agreements. Statutes also require that collateral pledged must have a fair value equal to 100% of the funds on deposit, less FDIC insured amounts. Pledged securities must be held by the City or a disinterested third party and must be of the kind prescribed by states statutes and approved by the State of Missouri.

The City maintains a cash and investment pool, which is available for use by most funds. Substantially, all excess cash is invested in repurchase agreements, certificates of deposits, and federal agency securities. Each fund's portion of this pool is displayed as cash and investments or in restricted cash and investments. Interest earned is allocated to the funds on the basis of average monthly cash and investment balances. Cash and investments are held separately by some of the City's funds. Additionally, certain restricted cash and investments are invested in accordance with bond ordinances by the trustee in money market mutual funds and U.S. Government agency obligations.

#### Custodial Credit Risk

The custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the City will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. For deposits, the City follows state statutes which require pledged collateral with a fair value equal to 100% of the funds on deposit, less FDIC insured amounts. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the City will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The City's policy is to collateralize all deposits and repurchase agreements with securities held by the financial institution's agent and in the City's name but does not limit the holdings of any one counterparty.

At December 31, 2019, the pooled U.S. Government agency investments were held by the City's financial institution in the City's name. Restricted investments are held in the City's name by the bond trustee in accordance with the related bond indenture.

At December 31, 2019, the City's deposits were insured by Federal depository insurance and uninsured deposits were fully collateralized by securities held by the City's agent in the City's name.

The carrying amount and maturity segment for the City's investments at December 31, 2019 are as follows:

|                                       | Investment           |           |             |              |    | t Maturity |  |  |
|---------------------------------------|----------------------|-----------|-------------|--------------|----|------------|--|--|
| Investments                           | Total 1 year or less |           | ear or less | 1 to 5 years |    |            |  |  |

#### Credit Risk

Credit risk is the risk that the issuer or other counterparty to an investment will be unable to fulfill its obligations. It is the City's policy to minimize credit risk by limiting its investments to Certificates of Deposit, bonds, or other obligations of the United States, and other debt securities given the highest available rating by a nationally recognized statistical rating organization. The only security listed above that is not either a U.S. Government obligation, or explicitly guaranteed by the U.S. Government is the Financial Square Treasury Money Market Fund which is rated Aaa-mf by Standard & Poor's as of yearend.

#### Interest Rate Risk

The City's investment policy limits investment maturities to five years as a means of managing its exposure to fair value losses arising from changes in interest rates. To minimize the risk of loss, the City matches investments to anticipated cash flows and diversifies the investment types to the extent practicable. The City has elected to use the segmented time distribution method of disclosure for its interest rate risk. The U.S. Government and agency obligations above have maturity dates ranging from January 21, 2020 to December 30, 2024.

### Concentration of Credit Risk

The City's investment policy does not limit the amount that can be invested with any one issuer. Investments that represent more than 5% of the City's investments consist of U.S. Government agency securities and are included above.

### Fair Value Measurements

The City categorizes its fair value measurements within the fair value hierarchy established by general accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted in active markets for identical assets; Level 2 inputs are significant other observable inputs such as third party pricing services for identical assets; Level 3 inputs are significant unobservable inputs. The City has the following recurring fair value measurements as of December 31, 2019:

| Investments   | Level 1 |                      |  |  |
|---|---------|----------------------|--|--|
| Federal Farm Credit Banks<br>Federal Home Loan Bank | \$      | 2,781,070<br>313,729 |  |  |
| Federal National Mortgage Association               |         | 926,456              |  |  |
| Totals  | \$      | 4,021,255            |  |  |
| Investments held in trust                           |         |                      |  |  |
| Money market mutual funds                           | \$      | 818,533              |  |  |

All of the City's investments are classified as Level 1 of the fair value hierarchy using prices quoted in active markets for those securities.

# (3) Tax Revenues and Taxes Receivable

The City's property taxes are levied and recorded each November 1 on the assessed value as of the prior January 1 for all property located in the City and are delinquent on January 1 (the lien date) following the levy date. Assessed values are established by the county assessor, subject to review by the County's Board of Equalization. The assessed value of local property at January 1, 2019, was \$135,221,334.

The tax levy per \$100 of assessed valuation of tangible property for the tax year ended December 31, 2019 was as follows:

| General Fund | \$0.5430 |
|--------------|----------|
| Park Fund    | 0.1228   |
|              | \$0.6658 |

Taxes receivable consisted of the following at December 31, 2019:

|                        | Property<br>Taxes |        | Sales<br>Taxes |         | Fı | ranchise<br>Taxes | Total |         |  |
|------------------------|-------------------|--------|----------------|---------|----|-------------------|-------|---------|--|
| Governmental funds:    |                   |        |                |         |    |                   |       |         |  |
| General fund           | \$                | 11,695 | \$             | 494,302 | \$ | 52,519            | \$    | 558,516 |  |

#### (5) Interfund Activity

Transfers between funds for the year ended December 31, 2019 were as follows:

|                             | Transfers Out: |         |    |          |    |           |  |
|-----------------------------|----------------|---------|----|----------|----|-----------|--|
|                             |                |         | С  | ommunity |    | _         |  |
|                             | General Center |         |    |          |    |           |  |
|                             |                | Fund    |    | Fund     |    | Total     |  |
| Transfers In:               |                |         |    |          |    |           |  |
| Community Center Fund       | \$             | 76,748  | \$ | -        | \$ | 76,748    |  |
| Towne Center TIF Fund       |                | 100,000 |    | -        |    | 100,000   |  |
| Nonmajor Governmental Funds |                | 263,231 |    | 839,831  |    | 1,103,062 |  |
| Nonmajor Business-type      |                | 31,950  |    | -        |    | 31,950    |  |
| Total                       | \$             | 471,929 | \$ | 839,831  | \$ | 1,311,760 |  |

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, and (2) to use unrestricted revenues collected in a fund used to finance various programs accounted for in other funds in accordance with budgetary authorizations. Any transfers within the governmental funds or within the proprietary funds have been eliminated in the government-wide statement of activities.

Interfund receivable and payable balances as of December 31, 2019 were as follows:

|                          | Due to:       |  |  |
|--------------------------|---------------|--|--|
|                          | General       |  |  |
| Due from:                |               |  |  |
| Governmental activities: |               |  |  |
| Community Center Fund    | \$<br>133,165 |  |  |
| Towne Center TIF Fund    | <br>58,933    |  |  |
|                          | \$<br>192,098 |  |  |

Amounts due to the General Fund from the Community Center Fund and Towne Center TIF Fund represent advances for short-term cash flow needs.

# (6) Capital Assets

A summary of the changes in capital assets for the ended December 31, 2019 is as follows:

|   | January 1,    |           |             | December 31,  |
|---|---------------|-----------|-------------|---------------|
| Governmental activities:                    | 2019          | Additions | Retirements | 2019          |

#### A. Governmental Activities Debt

#### Tax Increment Revenue Bonds

On April 16, 2018, the City issued Series 2018 City of Harrisonville, Missouri Annual Appropriation-Supported Tax Increment and Sale Tax Refunding Revenue Bonds (Harrisonville Town Center Project) in the amount of \$5,580,000 to refund the remaining \$6,245,000 of the outstanding Series 2007 Tax Increment Revenue Bonds. Net proceeds of the Series 2018 revenue bonds along with available Series 2007 revenue bond trust funds and additional City fund totaling \$954,237 were deposited in trust with an escrow agent to pay accrued interest and all of the outstanding balance of the 2007 bonds.

The 2018 bonds are special, limited obligations of the City payable solely from and secured as to payments of principal and interest by a pledge certain payments in lieu of taxes and economic activity taxes generated within the Towne Center TIF District, subject to annual appropriation. The bonds mature semi-annually on May 1 and November 1 beginning on November 1, 2018 and continuing through November 1, 2028 in amounts ranging from \$400,000 to \$590,000, including interest at 2.0% to 3.0%.

#### Promissory Notes Payable

In 2011, the City entered into a promissory note payable of \$171,931 with the Missouri Department of Natural Resources to provide partial funding for the purpose of constructing and installing energy savings equipment in the Community Center. The note requires semi-annual payments of principal including interest at 2% until maturity on April 1, 2023.

#### Certificates of Participation

\$7,830,000 Series 2012 Refunding Certificates of Participation. Proceeds were used refund the Series 2003 Certificates of Participation. Due in annual installments through December 1, 2022 including interest ranges from 2.00% to 3.00%.

#### B. Business-type Activities Debt

#### Revenue Bonds - Electric Fund

\$2,730,000 Series 2007 Electric System Refunding Revenue Bonds. Proceeds were used to refund outstanding Series 1999 Electric System Revenue Bonds. Due in annual installments through November 1, 2020 including interest from 4.0% to 4.5%.

#### Revenue Bonds - Water/Sewer Fund

\$4,370,000 Series 2002 Combined Waterworks and Sewerage System Revenue Bonds (State Revolving Fund Program). \$3,660,000 of the proceeds were used to fund certain improvements to the City's combined waterworks and sewerage system and \$710,000 was issued to refund a prior issue of bonds of the City. Due in annual installments through July 1, 2023 including interest from 2.05% to 5.0%.

\$3,295,000 Series 2003 Combined Waterworks and Sewerage System Revenue Bonds (State Revolving Fund). Proceeds were used to fund certain improvements to the City's sewer system. Due in annual installments through July 1, 2024 including interest from 2.0% to 5.25%.

\$1,710,000 Series 2005 Combined Waterworks and Sewerage System Revenue Bonds (State Revolving Fund). Proceeds were used to fund certain improvements to the City's sewer system. Due in annual installments through July 1, 2025 including interest from 3.0% to 5.0%.

\$3,288,541 Series 2010 Combined Waterworks and Sewerage System Revenue Bonds (Original amount not to exceed \$4,300,000). Proceeds were used to fund certain improvements to the City's sewer system. Due in annual installments through July 1, 2030 including interest at 30% of the Revenue Bond Index as published in The Bond Buyer.

(Not to exceed \$9,544,000) Series 2017 Combined Waterworks and Sewerage System Revenue Bonds. Proceeds were used to fund certain improvements to the City's water treatment plant. Due in semi-annual installments beginning January 1, 2019 through January 1, 2038 including interest from 1.15% and an administrative fee of .05%.

As of December 31, 2019, the sinking funds and the reserve funds were adequately funded, and the City was in compliance with its rate covenants for all bonds.

#### Promissory Note Payable

In 2011, the City entered into a promissory note payable of \$380,000 with the Missouri Department of Natural Resources to provide partial funding for the purpose of constructing and installing energy savings equipment in the City's water/sewer facilities. The note requires semi-annual payments of principal including interest at 2% until maturity on October 1, 2022. The future annual debt service requirements are as follows:

|      | Р  | rincipal | In | terest |
|------|----|----------|----|--------|
| 2020 | \$ | 33,440   | \$ | 2,162  |
| 2021 |    | 34,282   |    | 1,320  |
| 2022 |    | 27,049   |    | 458    |
|      | \$ | 94,771   | \$ | 3,940  |

# D. Component Unit

#### Tax Increment Revenue Note

On December 18, 2009, the City issued \$9,000,000 in Tax Increment Revenue Notes for the purpose of providing funds to pay for certain reimbursable costs associated with the Cooperation, Financing, and Pledge Agreement (CFP Agreement) dated December 18, 2009, between the City; Harrisonville MP, LLC; The Harrisonville Market Place Transportation Development District A (TDD A); and The Harrisonville Market Place Transportation Development District B (TDD B).

The City has pledged the incremental payments in lieu of taxes and Economic Activity Taxes generated by the private development within the Market Place TIF District (the District). Additional revenues generated by the TDD A and TDD B districts are also pledged to the repayment of the Note. The Note does not constitute a general obligation of the City.

From the date of this Note, the applicable interest rate on the unpaid principal balance of this Note was 6% per annum. During 2011, the interest rate on this Note was adjusted to 4.75% and subsequently on April 1, 2014, it was adjusted again to 6.5%, and on April 1, 2017 to 6.0% with payments due annually. The restructured Note does not call for regular principal payments, and no balloon payment is disclosed on the Note. The City is required to submit collections of revenues for the District to a separate account, which is used to pay the required annual debt service payments.

#### **Developer Obligations**

Certain developers have incurred certain costs that are eligible for reimbursement under the Market Place TIF Plan. These obligations are special limited obligations of the City, payable only to the extent that tax increment financing revenues are available upon retirement of the tax increment revenue note discussed above. At December 31, 2019, the total obligations under these agreements was \$5,326,059.

#### (8) Employees Retirement System

#### A. Plan Description

The City's defined benefit pension plan provides certain retirement, disability, and death benefits to plan members and beneficiaries. The City participates in the Missouri Local Government Employees Retirement System (LAGERS). LAGERS is an agent multiple-employer, statewide public employee pension plan established in 1967 and administered in accordance with RSMo. 70.600-70.755. As such, it is LAGERS responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401(a) and is tax exempt. The responsibility for the operations and administration of LAGERS is vested in the LAGERS Board of Trustees consisting of seven persons. LAGERS' issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained by accessing the LAGERS website at <a href="https://www.molagers.org">www.molagers.org</a>.

#### B. Benefits Provided

LAGERS provides retirement, death, and disability benefits. Benefit provisions are adopted by the governing body of the employer, within the options available in the state statutes governing LAGERS. All benefits vest after 5 years of credited service. Employees who retire on or after age 60 (55 for police) with 5 or more years of service are entitled to an allowance for life based upon the benefit program information provided below. Employees may retire with an early retirement benefit with a minimum of 5 years of credited service and after attaining age 55 (50 for police) and receive a reduced allowance.

2019 Valuation

Benefit Multiplier: 1.75% for life, plus 0.25% to age 65

Final Average Salary: 3 Years

Final Average Salary: 3 Year Member Contributions: 0%

Benefit terms provide for annual post retirement adjustments to each member's retirement allowance subsequent to the member's retirement date. The annual adjustment is based on the increase in the Consumer Price Index and is limited to 4% per year.

#### C. Employees Covered by Benefit Terms

The following employees were covered by the benefit terms:

|   | General | Police | Fire | Total |
|---|---------|--------|------|-------|
| Inactive members or beneficiaries currently |         |        |      |       |
| receiving benefits                          | 56      | 18     | 3    | 77    |
| Inactive members entitled to but not yet    |         |        |      |       |
| receiving benefits                          | 49      | 16     | 19   | 84    |
| Active members                              | 72      | 22     | 20   | 114   |
|   | 177     | 56     | 42   | 275   |

#### D. Contributions

The City is required to contribute amounts at least equal to the actuarially determined rate, as established by LAGERS. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance an unfunded accrued liability. Full-time employees of the City do not contribute to the pension plan. Employer contribution rates are 8.7% (General), 14.7% (Police) and 10.4% (Fire) of annual covered payroll.

#### E. Net Pension Asset

The City's net pension asset was measured as of June 30, 2019, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of February 28, 2019.

#### F. Actuarial Assumptions

The total pension liability in the February 28, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 3.25% wage inflation; 2.5% price inflation

Salary Increase 3.25% to 6.55% including wage inflation (General and Police)

3.25% to 7.15% including wage inflation (Fire)

Investment rate of return 7.25%, net of investment expenses

The healthy retiree mortality tables, for post-retirement mortality, were the RP-2014 Healthy Annuitant mortality tables for males and females. The disabled retiree mortality tables, for post-retirement mortality, were the RP-2014 disabled mortality table for males and females. The pre-retirement mortality tables used were the RP-2014 employees' mortality table for males and females.

Both the post-retirement and pre-retirement tables were adjusted for mortality improvement back to the observation period base year of 2006. The base year for males was then established to be 2017. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to the above described tables.

The long-term expected rate of return on pension plan investments was determined using a model method in which the best-estimate ranges of expected future real rates of return (expected returns, net of investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

|                  | Target     | Long-Term Expected  |
|------------------|------------|---------------------|
| Asset Class      | Allocation | Real Rate of Return |
| Alpha            | 15.00%     | 3.67%               |
| Equity           | 35.00%     | 4.78%               |
| Fixed Income     | 31.00%     | 1.41%               |
| Real Assets      | 36.00%     | 3.29%               |
| Strategic Assets | 8.00%      | 5.25%               |
| Cash             | 10.00%     | 0.00%               |
| Leverage         | -35.00%    | -51.00%             |

#### G. Discount Rate

The discount rate used to measure the total pension liability is 7.25%. The projection of cash flows used to determine the discount rate assumes that employer and employee contributions will be made at the rates agreed upon for employees and the actuarially determined rates for employers. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to pay all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payment to determine the total pension liability.

# H. Changes in the Net Pension Asset

|                                     | Increase (Decrease)    |               |                   |  |  |  |  |
|-------------------------------------|------------------------|---------------|-------------------|--|--|--|--|
|                                     | Total Pension          | Net Pension   |                   |  |  |  |  |
|                                     | Liability Net Position |               | Liability (Asset) |  |  |  |  |
|                                     | (a)                    | (b)           | (a) - (b)         |  |  |  |  |
| Balances at beginning of year       | \$ 28,091,177          | \$ 30,810,594 | \$ (2,719,417)    |  |  |  |  |
| Changes for the year:               |                        |               |                   |  |  |  |  |

#### **Deferred Compensation Plan**

The City offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all City employees, permits them to defer a portion of their salary until future years. Participation in the plan is optional. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency. All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property, or rights are solely the property of the participants. Investments are managed by the plan's trustee under several investment options. The choice of the investment options is made by the participants.

#### (9) Post Employment Health Benefits

#### A. Plan Description

The City provides for a continuation of medical, prescription drug, hearing and vision insurance benefits to employees that retire from City employment. The City provides retiree healthcare benefits through Midwest Public Risk (MPR), which is a risk pool comprised of approximately 115 entity members. It has been determined that MPR functions as an agent multiple-employer plan. The plan does not issue separate financial statements. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Governmental Accounting Standards Board Statement No. 75 (GASB Statement 75).

#### B. Benefits Provided

The City requires the retirees to pay 135% of the premiums charged to active employees. The rates being paid by retirees for benefits are typically lower than those for individual health insurance policies. (The retiree insurance is quaranteed issue; no medical questionnaire is required.) The difference between these amounts is the implicit rate subsidy, which is considered other post-employment benefits (OPEB) under GASB Statement 75.

Retirees and spouses have the same benefits as active employees. However, all retiree coverage terminates upon Medicare entitlement or payment is not received on a timely basis. When the retiree attains Medicare eligibility age, it may be a COBRA qualifying event for the spouse.

#### C. Employees Covered by Benefit Terms

As of the July 1, 2017 actuarial valuation, the following employees were covered by the benefit terms:

| Inactive members or beneficiaries currently receiving benefit payments | 3   |
|--|-----|
| Active employees   | 105 |
|  | 108 |

#### D. Total OPEB Liability

The City's total OPEB liability of \$222,210 was measured as of December 31, 2019 and was determined by an actuarial valuation as of July 1, 2017.

#### E. Actuarial Assumptions

The total OPEB liability in the July 1, 2017 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement:

Salary increase 2.5% per year

Discount rate 3% (December 31, 2019)

Healthcare cost trend rates 6.5% for 2019, decreasing by 0.5% per year through

2021 and then decreasing by 0.25% per year to an

ultimate rate of 5.0% for 2025 and later years

Retirees' share of benefit-

related costs 145% of plan premiums

The discount rate was based on the S&P Municipal Bond 20 year High Grade and the Fidelity GO AA-20 Years indexes.

Mortality rates were based on the RP-2014 Mortality tables, as appropriate, with adjustments to reflect the Society of Actuaries RPH-2014 adjusted to 2006 total dataset headcount mortality table with MP-2018 full generational improvement,

The actuarial assumptions used in the July 1, 2017 valuation were based on an experience analysis of the plan's past experience, the actuary's experience with plans of similar size, plan design, retiree and spouse contribution level and assumptions used in the City's participation in the corresponding pension plan through LAGERS, as applicable.

# F. Change in the Total OPEB Liability

|  | Total OPEB |          |  |
|--|------------|----------|--|
|  | Liability  |          |  |
| Balances, beginning of year                        | \$         | 236,118  |  |
| Changes for the year:                              |            |          |  |
| Service cost                                       |            | 17,611   |  |
| Interest   |            | 9,061    |  |
| Changes in benefit terms                           |            | (61,556) |  |
| Differences between actual and expected experience |            | 18,513   |  |
| Changes in assumptions and other inputs            |            | 17,463   |  |
| Employer contributions                             |            | (15,000) |  |
| Net changes  |            | (13,908) |  |
| Balances, end of year                              | \$         | 222,210  |  |
|  |            |          |  |

#### G. Sensitivity of the total OPEB Liability to Changes in the Discount Rate

The following presents the OPEB Liability of the City, calculated using the discount rate of 3.00%, as well as what the City's OPEB Liability would be using a discount rate that is 1 percentage point lower (2.00%) or one percentage point higher (4.00%) than the current rate.

|                      | <br>Decrease<br>2.00% | Dis | count Rate<br>3.00% | 1% Increase<br>4.00% |         |  |
|----------------------|-----------------------|-----|---------------------|----------------------|---------|--|
| Total OPEB liability | \$<br>244,082         | \$  | 222,210             | \$                   | 204,412 |  |

#### H. Sensitivity of the total OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following presents the OPEB Liability of the Library, calculated using the healthcare cost trend rate of 6.5%, as well as what the City's OPEB Liability would be using a discount rate that is 1 percentage point lower (5.5% decreasing to 4%) or one percentage point higher (7.5% decreasing to 6%) than the current rate.

|                      | 1% | Decrease             | Disc                          | count Rate | 1% Increase |                   |  |  |
|----------------------|----|----------------------|-------------------------------|------------|-------------|-------------------|--|--|
|                      | `  | decreasing<br>to 4%) | (7.5% decreasing (7.5% to 5%) |            |             | decreasing to 6%) |  |  |
| Total OPEB liability | \$ | \$ 190,295           |                               | 222,210    | \$ 260,906  |                   |  |  |

# I. OPEB Expense and Deferred Inflows of Resources Related to OPEB

For the year ended December 31, 2019, the City recognized OPEB expense of \$(34,360). The City reported deferred inflows related to OPEB from the following sources:

|  | D  | eferred   | Deferred   |        |  |
|--|----|-----------|------------|--------|--|
|  | Ou | tflows of | Inflows of |        |  |
|  | Re | sources   | Resources  |        |  |
| Differences between expected and actual experience | \$ | 17,089    | \$         | -      |  |
| Changes in assumptions                             |    | 16,120    |            | 24,677 |  |
| Total  | \$ | 33,209    | \$         | 24,677 |  |

Amounts reported as deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

| Year ending December 31: | Total |       |  |  |
|--------------------------|-------|-------|--|--|
| 2020                     | \$    | 524   |  |  |
| 2021                     |       | 524   |  |  |
| 2022                     |       | 524   |  |  |
| 2023                     |       | 524   |  |  |
| 2024                     |       | 524   |  |  |
| Thereafter               |       | 5,912 |  |  |
| Total                    | \$    | 8,532 |  |  |

# J. Financial Statement Reporting of the City's OPEB

The following table summarizes the City's OPEB reporting:

#### (10) Commitments and Contingencies

#### A. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

The City has transferred its risk by obtaining coverage from a public self-insured insurance pool. In addition, it has effectively managed risk through various employee education and prevention programs. There has been no significant reduction in insurance coverage from the previous year.

The amount of settlements has not exceeded the City's insurance coverage in any of the past three fiscal years.

The City is a member of the MPR (Midwest Public Risk), a not-for-profit corporation consisting of governmental entities incorporated in 1984 to acquire insurance for its members. MPR operates as a purchasing pool and is not a joint venture activity of the City. The City has no control over budgeting, financing, management selection, or the governing body. MPR provides both conventional and self-insurance coverage for its members including medical, dental, property, casualty, general liability, and workers' compensation. The City participates in the workers' compensation insurance coverages.

MPR manages the cash and investment pool, funded by insurance premiums, on behalf of its members. MPR's investment pool consists of interest-bearing deposits, U.S. Treasury, and U.S. governmental agency obligations.

In the event that a deficit occurs with respect to any fiscal year of MPR for which the City was a participant at any time during such year, and in the event that MPR determines that an assessment is required in order to provide additional funds for the obligations of MPR for such year, and further, in the event that the City was covered by the types of benefits requiring the assessment during the time period in which the assessment arose, the City is obligated to pay its pro rata share of any such assessment, irrespective of whether or not the City is a member of MPR at the time of such assessment.

MPR's financial statements are presented in its Comprehensive Annual Financial Report.

#### B. Federal and State Grants

The City has received financial assistance from various federal, state, and local agencies in the form of grants and entitlements. These programs are subject to audit by agents of the granting authority. Management does not believe that liabilities for reimbursements, if any, will have a materially adverse effect upon the financial condition of the City.

#### C. Litigation

The City is involved in legal proceedings arising from the ordinary course of City activities. While these proceedings may have future financial effect, management believes that their ultimate outcome will not be material to the basic financial statements.

#### D. Promissory Note Receivable

On March 18, 2011, the City received a promissory note from Harrisonville Housing Associates, L.P. Clarkton, Missouri, in the amount of \$750,490 with zero percent interest. The note calls for repayment of principal annually in an amount equal to 50% of cash flow, if any, allowed by the Missouri Housing Development Commission and the United States Department of Agriculture, Rural Housing Service (Rural Development) "the Agency." Such payment is due thirty days after the date that the audit of the Harrisonville Housing Associates, L.P., is approved by the Agency. In any event, all remaining indebtedness is due and payable on March 18, 2062. The note is secured by a Deed of Trust.

Since the ultimate collectability is uncertain, City management has established an allowance for uncollectible note receivable that is equal to the outstanding balance of the note receivable of \$744,270 at December 31, 2019. There were no payments received on the note receivable for the year ended December 31, 2019. Funding for the loan was made available with a CDBG grant which is available for re-use from collections of principal for other eligible CDBG activity.

#### E. Long-term Contract

On March 21, 2005, the City entered into the Amended and Restated Missouri Public Energy Pool #1 Agreement (the MoPEP Agreement) among the Missouri Joint Municipal Electric Utility Commission (MJMEUC) and various cities within the state of Missouri who have also signed the MoPEP Agreement. Each of the cities who have signed the MoPEP Agreement are collectively referred to as (MoPEP Members).

Under the MoPEP Agreement, each MoPEP Member, including the City, has agreed to purchase from MJMEUC all of the MoPEP Member's requirements for electric capacity, energy, transmission, and other necessary electric services from MJMEUC. MoPEP Members may also dedicate any member-owned electric capacity to MJMEUC for the benefit of MoPEP.

MJMEUC is required under the MoPEP Agreement to provide electric capacity, energy, transmission, and other necessary electric services needed by MoPEP Members to fulfill their full requirements to service the MoPEP Members' retail customers. To meet the power and energy requirements of the City and the other MoPEP Members, MJMEUC presently obtains power and energy through: (i) power purchased under long-term firm energy contracts, unit-contingent energy contracts and interruptible contracts; (ii) MJMEUC-owned generation; (iii) MoPEP Member capacity; and (iv) spot market purchases. Neither the City nor any other MoPEP Member has an ownership interest in any of MJMEUC's assets.

Each MoPEP Member (including the City) is liable under the MoPEP Agreement for its proportionate share of all costs associated with MJMEUC's performance under the MoPEP Agreement.

MoPEP operations are governed by a committee (Pool Committee) consisting of one representative from each MoPEP Member and is currently comprised of 35 members as of December 31, 2019.

The Pool Committee is charged with setting rates for all services provided by MJMEUC to MoPEP Members. These rates include recovery of all of MJMEUC's costs (the Direct Costs) incurred in connection with acquiring, providing, arranging, or financing the provision of full requirements service to MoPEP Members. Such rates are based upon an annual budget and include, but are not limited to, all payments MJMEUC is required to make under contracts and/or financial commitments and obligations entered into by MJMEUC necessary to provide full requirements service, without regard to whether any particular resource is available to or used by any particular MoPEP Member. Direct Costs also include amounts required to fund capital and/or operating reserves and debt service coverages MJMEUC is required to maintain pursuant to contract to serve MoPEP Members as established from time to time by the Pool Committee.

The MoPEP Agreement requires that rates charged to each MoPEP Member be established at least annually and adjusted to recognize variances between budgeted and actual costs at least every six months. Charges based on such rates are assessed and billed monthly. The City's payment obligations under the MoPEP Agreement are limited to the obligation to make payments from revenues of the City's electric utility system and available electric utility system revenues. All payments made by the City pursuant to the MoPEP Agreement are considered operation and maintenance expenses of the electric utility system. MoPEP Members are required under the MoPEP Agreement to at all times establish, maintain, and collect rates, fees, and charges for electric service sufficient to meet the MoPEP Member's obligations under the MoPEP Agreement.

In the event a MoPEP Member cancels the MoPEP Agreement, the member remains responsible for its allocated share of MJMEUC's Direct Costs associated with all resource obligations entered into by MJMEUC for MoPEP prior to the notice of cancellation. MJMEUC would utilize or sell the MoPEP Member's allocated share of output in exchange for providing the MoPEP Member a credit or offset equal to the fair market value of the output up to the amount of the MoPEP Member's payment obligation under the MoPEP Agreement. As a result, the MoPEP Member would have a financial obligation after cancellation in the event that the fair market value of the output is less than the MoPEP Member's allocated share of MJMEUC's Direct Costs with respect to the resource obligations at the time of cancellation. Since the amount of the cancelling MoPEP Member's obligation would depend on MJMEUC's Direct Costs after cancellation and the fair market value of the output at such times in the future, the amount of the obligation is not reasonably determinable. Currently, the City has no plans or intentions to cancel the MoPEP Agreement. MJMEUC's audited financial statements are available on its website at www.mpua.org

During the year ended December 31, 2019, the City's electricity purchased for resale under this agreement totaling \$7,856,916.

#### F. Encumbrances

Encumbrance accounting is used in the governmental funds by recording purchase orders, contracts, and other commitments for the expenditure of funds in order to assure effective budgetary control and accountability. The following encumbrances were outstanding at year end:

| Fund                    | Outstanding<br>Encumbrances |  |  |  |  |  |
|-------------------------|-----------------------------|--|--|--|--|--|
| General Fund            | \$<br>124,953               |  |  |  |  |  |
| Community Center Fund   | 1,500                       |  |  |  |  |  |
| Electric Fund           | 1,000                       |  |  |  |  |  |
| Water/Sewer Fund        | 103,169                     |  |  |  |  |  |
| Emergency Services Fund | <br>55,365                  |  |  |  |  |  |
| Total                   | \$<br>285,987               |  |  |  |  |  |

#### G. Commitments

On March 15, 2015, the City entered into a loan agreement with The Highways 71/291 Partners in Progress Transportation Development District (a fiduciary fund), to coordinate efforts for the design, construction, and operation of District projects. The agreement established a funding plan in which the City will provide funding advances to the District in the amount not to exceed \$1,500,000. Under the agreement, the District Highways 71/291 Partners in Progress Transportation Development District is scheduled to begin repaying the City with interest at 6%. As of December 31, 2019, the total amount outstanding due to the City under this loan agreement was \$430,444.

#### (11) Tax Abatement

Tax abatements may be granted under the Urban Redevelopment program described under Chapter 353 of the RSMo, the Industrial Development program described under Chapter 100 of RSMo, and the Enhanced Enterprise Zone program described under Sections 135.950 to 135.973 of RSMo. For each of these programs, property taxes are abated by reducing the assessed valuation of the associated properties. For the year ended December 31, 2019, management has determined that any tax abatements are not significant or material to the City's financial position.

# (12) Subsequent Events

The City evaluated subsequent events through August 10, 2020, the date the financial statements were available to be issued. No subsequent events were identified that required disclosure in the financial statements.

On March 11, 2020, the World Health Organization declared the COVID-19 virus outbreak a world-wide pandemic. Due to the COVID-19 pandemic, businesses within the City and the entire State of Missouri were subject to a stay at home order. Management is closely monitoring the situation and the impact on its operations. The ultimate effect on the City's financial statements is not currently determinable.

# CITY OF HARRISONVILLE, MISSOURI NOTES TO BUDGETARY COMPARISON SCHEDULES FOR THE YEAR ENDED DECEMBER 31, 2019

#### NOTE 1. BUDGETARY INFORMATION

An annual budget prepared under the modified accrual basis of accounting is adopted in December prior to the beginning of each fiscal year for all revenues and expenditures of all Governmental Funds of the City, except for the Towne Center TIF Fund. The primary basis of budgetary control is at the department level. Departments may not legally exceed their total appropriation without the Board of Aldermen approval. A review of the current year's budget is made by the departments in December of each year and interdepartmental transfers are made with Board of Aldermen approval. Any remaining unencumbered appropriations lapse at fiscal year-end unless re-appropriated by the Board of Aldermen. Any increase in appropriations during the fiscal year must be approved by the Board of Aldermen.

Valuation Date February 28, 2019

Notes: The roll-forward of total pension liability from February 28, 2019 to June 30, 2019

reflects expected service cost and interest reduced by actual benefit payments and

administrative expenses.

Methods and assumptions used to determine contributions rates:

Actuarial cost method Entry Age Normal and Modified Terminal Funding

Amortization method A level percentage of payroll amortization method is used to amortize the UAAL over a

closed period of years. If the UAAL (excluding the UAAL associated with benefit changes) is negative, then this amount is amortized over the greater of (i) the

remaining initial amortization period or (ii) 15 years.

Remaining amortization period Multiple bases from 11 to 17 years

**Asset valuation method** 5-year smoothed market; 20% corridor

**Inflation assumption** 3.25% wage inflation; 2.5% price inflation

Salary increases 3.25% to 6.55% including wage inflation (General and Police)

3.25% to 7.15% including wage inflation (Fire)

Investment rate of return 7.25%, net of investment and administrative expenses

Retirement age Experienced-based table of rates that are specific to the type of eligibility condition

Mortality The healthy retiree mortality tables, for post retirement mortality, were the RP-2014

Healthy Annuitant mortality table for males and females. The disabled retiree mortality tables, for post-retirement mortality, were the RP-2014 disabled mortality table for male and females. The pre-retirement mortality tables used were the RP-2014

employees mortality table for male and females.

Both the post-retirement and pre-retirement tables were adjusted for mortality improvement back to the observation period based year of 2006. The base year for males was then established to be 2017. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to the above

described tables.

| Total liabilities and fund balances | \$<br>164,493 |

Amounts reported in the government-wide statements are different because:

## Reconciliation of Balance Sheet - Discretely Presented Component Unit to the Statement of Net Position

Fund balances \$ (110,507)

The issuance of long-term debt provides current financial resources, while the repayment of the principal of long-term debt consumes the current financial resources. Neither transaction has any effect on net position. The Commission's governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items:

| Long-term debt                           | (9,000,000)     |
|--|-----------------|
| Developer obligations                    | (5,326,059)     |

Note: A statewide real property reassessment program was implemented January 1, 1985, to create a more equitable sharing of the property tax burden by owners of real property.

Assessed value was determined by applying one of three percentages to the "Market Value." Those percentages are 32 for commercial, 19 for residential, and 12 for agriculture.

Tax rates are per \$100 of assessed value.

#### (1) On the basis of assessed valuation.

## NOTE:

Other government entities whose boundaries overlap the City have outstanding bonds payable from ad valorem taxes. This schedule of direct and estimated overlapping ad valorem debt was compiled from information furnished by the jurisdictions responsible for debt. Except for the amounts relating to the City, the City has not independently verified the accuracy or completeness of such information, and no representation regarding the reliability of such information is made.

Furthermore, certain entities listed in the statement may have issued additional bonds and such entities may have programs requiring the issuance of substantial additional bonds, the amounts of which cannot be determined at this time.

Lease purchase agreements are not included in this schedule but have been included in the past. This change accounts for the significant difference among this year and previous years' schedules.
